

Let Your Voice Be Heard

The time is now.

Ending
the
HIV
Epidemic

ABOUT

The SC Department of Health & Environmental Control (SC DHEC) is eligible for Federal HIV funding to help prevent HIV among at-risk individuals and enhance the care for people receiving HIV services in South Carolina.

As part of this planning effort, SC DHEC looks forward to your input. We need informed stakeholders (persons living with HIV, caregivers, social workers, medical professional and advocates) to come together and offer input into the gaps and barriers that exist and some ideas about how to address these challenges. Our ultimate goal is a robust Ending the HIV Epidemic (EHE) Plan for South Carolina.
